

Soft Landing Youth Program Internship

2026–2027 School Year

5–15 hours/week

Unpaid internship

About the Internship

Soft Landing Missoula is looking for college or young adult interns to join our Youth Program for the 2026–27 school year to support drop-in tutoring, career mentorship, and a third space away from school and home. Interns work alongside SLM staff and volunteers to create free, welcoming, and fun educational, social, and recreational opportunities for refugee and immigrant youth in Missoula. Your schedule can be flexible around school, work, and other commitments, with an average of 10–15 hours per week. A one semester commitment is required. You'll gain hands-on experience working with youth, develop leadership and intercultural communication skills, build professional connections, and—most importantly—help create a community where refugee and immigrant young people can learn, connect, have fun, and thrive.

Responsibilities

- **After School Tutoring:** Support Tuesday and Thursday after school academic programming, homework support, tutoring, and other activities designed around the needs of refugee and immigrant youth.
- **Social and Recreational Events:** Help facilitate social, educational, and recreational activities where young people can connect, make friends, and feel like they belong.
- **Logistical Support:** Assist with transportation, logistics, set-up, clean-up, and general support for social and recreational events.
- **Building relationships:** Spend time with youth, offer encouragement and mentorship, and be a positive, reliable adult figure in refugee and immigrant youth's lives.

Preferred Qualifications

- Have a high school diploma or equivalent
- Enjoy working with young people
- Are dependable, flexible, and willing to jump in where needed
- Work well as part of a team
- Care about community, inclusion, and making a difference
- Have a valid driver's license and access to a vehicle, and are willing to provide transportation for participants
